

```
1 package com;
2
3 import org.springframework.boot.SpringApplication;
4
5
6 @SpringBootApplication
7 public class HelloDevOpsApplication {
8
9     public static void main(String[] args) {
10         SpringApplication.run(HelloDevOpsApplication.class, args);
11         System.err.println("Hello-DevOps");
12     }
13
14 }
15
```

The screenshot shows the IntelliJ IDEA IDE interface. At the top, there is a toolbar with various icons for file operations, search, and development. Below the toolbar, the 'Task List' tab is active. The main workspace displays the package structure of the project. The 'com' package is expanded, showing the 'HelloDevOpsApplication' class. The 'main(String[]): void' method is highlighted, indicating it is the selected element.
